

Centric Bank Moves to Jack Henry Banking's SilverLake System

May 16, 2018

Bank chooses powerful core platform to support growth with digital sophistication and efficiency

MONETT, Mo., May 16, 2018 /PRNewswire/ -- Jack Henry & Associates, Inc. (NASDAQ:JKHY) is a leading provider of technology solutions and payment processing services primarily for the financial services industry. Its [Jack Henry Banking®](#) division announced today that Harrisburg, Penn.-based Centric Bank has selected the [SilverLake System®](#) to support its steady growth with more dynamic offerings, advanced digital services, and added efficiency.

Centric Bank has \$611 million in assets and is the top-rated small business lender in the Commonwealth of Pennsylvania for banks \$1 billion and below in asset size. The bank is committed to helping entrepreneurs realize their dreams by funding small- and medium-sized businesses; it has supported more than 1,600 local businesses in the last 10 years. Centric Bank views small business lending as another opportunity for them to provide clients with needed funding. One of the reasons Centric Bank decided to convert to SilverLake is to provide more services and functionality for their commercial customers, a rapid area of growth for the institution.

Centric Bank is confident in its longstanding relationship with Jack Henry Banking; the bank launched with the company's CIF 20/20® core platform and has grown with it for the last decade. While JHA continues to enhance the CIF 20/20 platform and provide exceptional support to approximately 470 banks, SilverLake offered Centric Bank a more robust system to take their institution's service to the next level. Patricia Husic, president and CEO of Centric Bank, said, "Our goal is to be the community bank of choice for small and medium-sized businesses, professionals, and individuals in Pennsylvania. We promise our customers immediate, direct access to bank decision makers, accompanied by superior services. And, we depend on Jack Henry Banking to help us deliver on these goals. For many years, the CIF 20/20 platform supported us well, and we're excited about the sophisticated services offered through the SilverLake System and the expanded features we'll be able to provide our customers. The platform's power and automation will allow our employees to offer more personal customer attention and focus on strategic initiatives."

Centric Bank also relies on the input of millennials to help guide their strategic and digital direction. In 2016, the bank partnered with a local young professional group to form a millennial advisory board that helps them determine what younger generations are looking for in banking relationships and potential workplaces. The group weighs in on everything from the products and services to marketing. Husic commented, "Our advisory board's guidance contributes to our decision to invest in technology like SilverLake that will help us maintain a high level of service and success while meeting digitally-savvy customers' expectations."

Stacey Zengel, president of Jack Henry Banking, added, "We rarely bring attention to our core migrations as we tend to only announce new core customer additions, but we're excited about what's ahead for our long-time customer Centric Bank. Progressive institutions like Centric Bank are the backbone of our economy; they are constantly evolving to meet customer preferences while consistently providing for their communities. The SilverLake System provides these growing financial institutions with the dynamic functionality necessary to help meet the needs of their target markets. Jack Henry Banking is committed to helping bank partners like Centric Bank successfully scale and compete in all areas of their business."
